**Subject:** JSCS Table Update  
**Date:** 04/04/2007 01:27 PM

---

Kristine,

Per our previous discussions, DEQ intends to update the screening level values in Table 3-1 of the Joint Source Control Strategy.

The update will include using DEQ's new January 31, 2007 Guidance for Assessing Bioaccumulative Chemicals of Concern in Sediment and replacing the US EPA Region IX preliminary remediation goals with US EPA Region VI preliminary remediation goals. Dave Cole, who recently joined our work group, will be helping me with the task. I will have Dave lined up to start the update in the next two weeks.

During our meeting yesterday, you mentioned that you have been thinking about possible modifications to the table. If possible, I would like to agree on any additional changes before Dave gets too far into the update. Please get back to me on the subject of table modifications.

Once the table is updated, DEQ will post it on our web page. We should also discuss what additional measures we may want to take to get the word out to the community.
